CPSP invites volunteers from final year residents

"Lets go to serve rural population too"
Prof. Zafar Ullah Chaudhry

"Socrates Award bestowed upon me is in fact an award for the Fellows of this College who have already created an unimpeachable brand of integrity, commitment, dedication and hard work with an urge to learn and improve themselves as well as our beloved Country. They do that by serving the Country with competency and efficiency".
(Prof. Chaudhry)

Prof. Zafar Ullah Chaudhry, President CPSP informed that CPSP has invited volunteers from the final year residents of General Surgery, General Medicine, Anesthesiology, Obstetrics and Gynecology and Pediatrics for a PILOT PROJECT to work at District Headquarters Hospitals for Three (3) months.

They will serve at District Headquarters Hospitals of

College will treat this as an important rotation of volunteering residents.

Let it be very clear to all that this is a pilot project and College will appreciate highly those who venture to undertake the challenges. The provincial Government of Punjab on its part has offered an additional stipend of Rs. 25,000/ per month.

It is being initiated as pilot project and this additional stipend can hardly be called an inducement; it is to encourage those who volunteer and go to serve the rural and less privileged populace of the Province. Besides, the provincial government will also provide single unfurnished accommodation at the District Hospitals they work.

College has taken this project with a view to provide best possible medical facilities to the rural population living on the margin. College has termed it as INTERNAL MIGRATION for the residents and College will consider it as integral part of their training experience.

College has placed this on its website to invite the applications of volunteers. College expects a large number of candidates volunteering because CPSP has developed a commitment and dedication to serve the ailing, suffering and needy with best and most competent doctors of Pakistan.
College is expecting to get the applications by the end of this month (February).

Prof. Zafar Ullah Chaudhry, President CPSP revealed this project at a press conference held on 12th January 2016 at Lahore. He also told that the applicants are supposed to submit a recommendatory letter from their supervisors too.

The Press Conference was convened by Prof. Khalid Masood Gondal, Senior Vice President CPSP and Regional Director, Lahore to share the news on Socrates Award bestowed on Prof. Zafar Ullah Chaudhry on 15th December 2015 at Oxford, UK.

Prof. Chaudhry told the press "Socrates Award bestowed upon me is in fact an award for the Fellows of this College who have already created an unimpeachable brand of integrity, commitment, dedication and hard work with an urge to learn and improve themselves as well as our beloved Country. They do that by serving the Country with competency and efficiency".

"Socrates Award was also given to us in 2013 too as CPSP was declared Best College of the world. It is acknowledgment of the services of the College and its team who work tirelessly, committed and with dedication. He added that the international community especially the Postgraduate Medical Colleges throughout the globe; from Royal College of Australasia to Canada do acknowledge the standards laid down by CPSP and the cadre produced by it. The Specialists who get their qualifications certified are received with open arms all over the World. Ireland is already having hundreds of our residents working and serving at various hospitals and medical institutions there and are considered as best doctors at their workplace".

(Prof. Khalid Masood Gondal, Senior Vice President)

Prof. Khalid Masood Gondal also highlighted the aspects of Advanced Skills that are being transferred to all those who can and do need to learn these skills. These skills are life saving and taking care of children old and young in distress and in difficult situations. These skill courses have been acquired from American College of Surgeons and from American Heart Association. They relate to emergencies and are known as ATLS, ACLS, PLS, BLS and ALSO. The College has a special department known as Advance Skills Department which administer these courses at all important centers of the College.

Prof. Gondal added that those who will be going to District Headquarter Hospitals will not only be specialists in their disciplines but will also be equipped with these life saving skills.

Prof. Ameer Zaman Khan, a member of the delegation to Europe, was also present at the Press Conference while Prof. Ghulam Mustafa Arain, Prof. Muhammad Tayyab, Prof. Kamran Khalid Khawaja and Dr. Sirajul Haque also joined in.
