Royal College of Physicians London, in collaboration with the College of Physicians and Surgeons Pakistan has invited applications from CPSP residents who have cleared their IMM examinations. These candidates after interviews by RCP will get the balance two (2) years under Medical Training Initiative Program training at UK.

Those selected by the Royal College of Physicians will be placed in various NHS Hospitals and institutions to further develop their skills and have exposure to clinical learning and experience there. The minimum requirements of RCP besides qualifying IMM examination of CPSP, includes successful scores in International English Testing System.

The applications are required to be sent to College of Physicians and Surgeons Pakistan and the interviews will be conducted by end of February. The candidates selected by Royal College of Physicians will be provided with all facilities and stipends as are paid to the residents of UK. The Royal College of Physicians has informed that positions in the following are always available as their training duration will be for a maximum of two (2) months in.

1. Acute Medicine
2. Endocrinology and Diabetes Mellitus
3. Gastroenterology
4. General (Internal) Medicine
5. Geriatric Medicine
6. Stroke Medicine
7. Respiratory Medicine
8. Renal Medicine

College of Physicians and Surgeons Pakistan will treat those getting their two (2) years training in UK as part of its balance training and the residents will take the FCPS exit examinations back home after completion of all other remaining requirements which include submission of their dissertation on the preapproved synopsis.

The College will consider these posting for the above as the trainees rotational trainings.

There are positions available for six (6) months and (2) two years also but these are not always available and depend on the chance to get and also to the qualifications and skills of the candidates.

It may be recalled here that Royal College of Physicians UK and College of Physicians and Surgeons Pakistan do have a subsisting MoU signed by both earlier.
